

Marine Solutions ...

Welcome to the easiest maintenance system afloat!

Origins of the Owatrol Marine range were found in the Norwegian fjords and Great Lakes of America. These products, some of them for over 60 years, have been used throughout the world, from the Arctic to the Caribbean and are for both interior and exterior boat maintenance.

Today this range of products is designed to help you enjoy years of boating with minimum maintenance.

Make sure that your boat gets the very best and most beautiful finish it deserves. Use Owatrol Marine line products and *ENJOY BOATING!*

Treat/Paint

DEKS OLJE® D.1 & D.2

For Teak and other boating woods.
Proven for years from the fjords of
Norway to the islands of the Caribbean.

Deks Olje D.1 - Matte Finish

gives a rich transparent finish so all previous finishes
must be removed. Wood should be clean and sanded before
application. Plan to spend most of the day applying D.1. Many other
jobs can be done between coats of D.1.

Now the marine finish that revolutionized boat upkeep in Norway is
scoring a brilliant success in America. Even on boats cruising under a
blistering Caribbean sun, Deks Olje not only lasts, but looks great, too.
That's why it's been used for years to provide carefree protection to
Norwegian fishing boats, cruise ships and pleasure craft.

Deks Olje D.2 - Gloss Finish

is a flexible gloss finish and should be used over #1 for best results.
Use D.2 for extra protection and easier maintenance especially on
spars, oars, hulls, outboard transoms, cabin soles and cockpit trim.
If the grain is raised, wet-sand the wood between D.1 and D.2
applications, according to wet sanding directions on the Deks Olje
label. For a satin finish, mix D.1 and D.2 together in equal parts. Apply
two coats after the surface is properly treated with D.1.
For a beautiful gloss finish, apply six coats of D.2.

MARINE STRIP

GEL REMOVER - WATER WASHABLE

Easy to apply gel.
Let the product work.
Will remove up to 8 coats.
Rinse with water.
Solvent free - biodegradable.

DECK CLEANER

CLEANER & BRIGHTENER

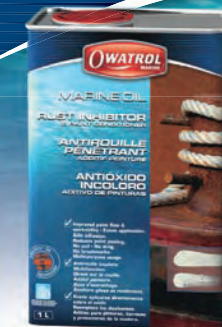

One step cleaner and brightener that removes
ground-in and surface dirt to weather-beaten
marine wood such as Teak and Mahogany.

GELCOAT RESTORER

COLOR RESTORER - PLASTICS & GELCOATS

Restores and protects fiberglass surfaces.
Deep penetrating oil. Long lasting finish.

MARINE OIL

RUST INHIBITOR & PAINT CONDITIONER

Improves paint flow & workability - eases application.
Aids adhesion - reduces paint peeling.
No pull - no drag - no brushmarks - Multi-purpose usage.

OWATROL® C.I.P.

CORROSIVE INHIBITING PRIMER

Chemical resistant anti-rust primer.
Ideal for difficult conditions
(tropical climate, corrosive gases, coastal areas,...)

OWATROL® ALU

MARINE ALUMINIUM PAINT

Rust/corrosion protection.
Excellent adhesion. Deep penetration.
Eliminates the need for a primer.
